## AGAIN SHELLED.

Mello's Bombarde Rio de Janeiro From the Harbor.

Several Women and Children Known to Have Been Killed.

The Full Extent of the Damage and Loss of Life Not Known—The Leader of the Rebel Movement President.

DURON AYRES, Sept. 26.—The town of Rosario is in the hands of the rebels. The national troops have retreated to San Nicolas, fifty miles distant from Rosario.

MONTVIDEON, Uruguay, Sept. 26.—The rebel fleet which has been so long blockading the harbor of Rio de Janeiro, again bombarded the city Monday. Under Admiral Mello's orders the firing was very severe, and the damage done exceeds that of the first bombardment. Several women and children were killed, but the extent of the damage and loss of life is not yet known, as no news is permitted by the government to be sent direct from Rio de Janeiro.

Part of Mello's fleet is still keeping up a vigorous blockade of Santos. Copies of Admiral Mello's proclamation have been received here. The leader of the revolution declares that President Peixoto, with the aid of corrupt members of the senate and the cabinet, has overridden the restrictions upon their powers by the constitution. Peixoto, he asserts, is trying to place Brazil under the rule of absolute tyranny. "By my aid," the proclamation continues, "in making this stand for liberty our cause shall triumph, I shall stand over the government, the destruction of those honorable men who gave freedom to our nation before."

Four members of the Brazilian congress, on board the rebel cruiser Aquidaua, have signed an address to the public. They say President Peixoto and the members of his cabinet have been stealing the republic from the hands of the people, and are destroying the autonomy of the states, and fomenting a national war, in order to serve their own personal ends. These acts, the address says, have reduced the presidential power to a mere shadow, and the signers, as representatives of the national will, to make the present solemn fight for freedom. They gave Admiral Mello command of their forces in this juncture, to avenge the destruction of peace, restoring law and re-establishing republican principles. The address closes with an appeal to all patriotic Brazilians to help their cause.

Confirmation of the report of the renewal of the blockade of Rio de Janeiro, the rebels have been received. Fighting has taken place at Uruguayana. The Brazilian minister here is sending arms and horses to help. The state of Paraná is in open revolt against Peixoto.

The straggle that has broken the camel's back was that of last Saturday evening. Between a band of colored laborers of the road quit work on the first section of the road, north of Monroe, and were quietly going to their supper, when they were fired into from ambush. They were just ahead of the New Orleans passenger train. The result was that one man, a colored man by the name of John Williams, was killed, and the rest of the men scattered, leaving the dead man on the track. The passenger train passed over him. There were four Negroes wounded. Two came to Monroe and were given medical attention, while the other two got away, and when I left their fate had not been ascertained.

LONDON, Sept. 26.—The Pall Mall Gazette says that a cipher has been received from Rio de Janeiro showing that the restoration of the monarchy is undoubtedly the intention of the rebels, and adding that the army and navy will soon co-operate to this end.

New Gas Machine. TACOMA, Wash., Sept. 26.—George R. Cowles, a pattern-maker of this city, has invented a machine for the production of gas from wood. Beside 100,000 cubic feet of gas, it will produce from a cord of firewood, worth \$4 here, thirteen sacks of charcoal and twelve gallons of tar, worth altogether \$18. A patent has been granted the inventor. The machine is very simple, consisting of a retort and purifying chamber, with a tank to hold the gas.

Bullion Outraged Hunter. LONDON, Sept. 26.—Sullivan won the sculling match Monday, from Putney to Mortlake, between himself and Libear, by five lengths. Sullivan, it will be remembered, was recently shot at from the river bank while practicing the race, a bullet wounding his leg, and his foot. A man was arrested and charged with the crime.

Glass Works to Start Up. PORTLAND, Sept. 26.—The Ohio Flint Glass works at Franklin will start its first blast on October 1. Employment will be given to 800 people—100 skilled men and the balance common laborers and boys. The factory is new and will engage in the manufacture of fine tableware.

Drowned in a Spring. PATERBOROUGH, W. Va., Sept. 26.—Miss Harriet Piersol, aged 45, was drowned at her home near Red Hill Monday morning by falling head foremost into a spring. Miss Piersol was epileptic and is supposed to have been seized with a fit while drawing water.

Harmless Wives. BURLINGTON, Sept. 26.—A dispatch from Kingston Monday evening says that Prince Hamarck is reported to suffer from loss of appetite, and may be obliged to remain in Kingston all through the winter.

Burglars Make a Good Hunt. CLARKSVILLE, Tenn., Sept. 26.—At Orinda, about twenty miles from here, a robbery was committed last night. The store of H. J. Crocker & Son was blown open and twelve hundred dollars stolen. The thieves escaped.

A CURIOUS CALCULATION.

Around the World 206 Times.

An eminent physician has made a curious

mathematical calculation in giving the

workings of the human heart in midlife.

He shows that in a lifetime of 81 years

the blood as it passes through the heart

travels a distance of 5,150,980 miles, which

in a continuous stream, would reach around

the world 206 times.

Keeping in view this constant strain on

the heart, and taking into consideration the

abuse it receives from over-exertion, alcohol,

and other stimulants, it is not wonder that

it finally becomes affected, refuses to

## A MONSTER STONE.

Intended for a Monument, but Will Be

Used Up Into Building Stone, as No City

Will Take It.

DENVER, Minn., Sept. 26.—Last fall

Frederick Fries, a New York man,

owning a sandstone quarry on the south

shore of Lake Superior, near Ashland,

conceived the idea of getting out and

setting up in the world's fair grounds

a great monolith, which should be the

largest single column in existence.

He therefore had set in his quarry,

at a cost of about \$15,000, a stone 110

feet long, ten feet square at the

base and tapering to four

feet at the top. Then the

cousin World's fair commissioners,

after getting estimates of from \$25,000

to \$40,000 as the cost of moving and

setting the stone, refused to make an

appropriation, as they only had \$60,000

to spend in all. It was then offered to

the city of Milwaukee as a gift to its

park board, to be a second and greater

Cleopatra's needle.

The financial cyclone struck Milwaukee

with great severity just about that

time, and of \$20,000 contributed to

ward a removal fund, it was found that

three-fourths was from embarrassed

individuals. Now Mr. Fries has begun

## DRESS GOODS

We have just received a shipment of new

and stylish Dress Goods, including plain and

checked Hosiery, all in new shades. A 36-

inch Navy Blue Cloth at only \$7.50 per

yard; 36-inch all-wool Cloth, in blue, tan and

gray, at \$6.00 per yard; Tan and gray

trousers, including all the latest makes, such

as Warner's, Hall's, J. H. P. D. H. & S. Woven,

## WHITE CAPISM.

Louisiana Has Grown Tired of

Mob Violence.

Gov. Foster Besieged With Appeals to

Enforce the Law.

A North Louisiana Attorney Offers Evd

ence Regarding White Caps—They

Wished to Destroy the Capital

Away From His Section.

NEW ORLEANS, Sept. 26.—F. G. Hud-

son, one of the leading members of the

bar of north Louisiana, who for ten

years occupied the position of district

attorney of the parish of Ouachita,

reached the city Monday morning from

his home in Monroe, en route to Baton

Rouge, to consult with Gov. Foster on

very important subject affecting the

citizens of north Louisiana. When

asked what the object of his mission

to the state capital was, Mr. Hudson

said:

"I am going to see the governor

about the white caps in our section of

the state. After laying facts before

his excellency, which far exceed the

troubles in Jefferson parish, I shall re-

quest him to offer a reward for the ar-

rest and conviction of murderers who

have been committing such heinous

crimes. I am sure that the governor

will be able to bring the guilty parties

to justice."

Mr. Hudson is the attorney for the

Iron Mountain, and he says that the recent murder of a

white man in the parish of Ouachita,

which are made almost daily have

grown so alarming that he has, with

the co-operation of good citizens, been

compelled to seek the aid of the state

authorities, with a view to bringing

the guilty parties to justice.

September and December. James H. Farrow,  
Constable.
